Native back proof, same icon and wordmark.

Icon integrity

The contour comes from the original approved 7:28 icon. Every color uses the same vector paths, including the original crossing gap.

Transparent assets

Standalone SVG and high-resolution PNG. White artwork is provided for dark surfaces. Peach is a display accent, not small interface text.

Print preparation

Vector marks and pattern art scale cleanly. Postcards include review proofs and a bleed version. Physical color and stock need a printer proof.
